

BOGGS

sectional fire shutter with ventilation grille and passage door

Sectional fire shutter characteristics:

fire resistance EI 60 to EW 90 DP1-C2

tailor made vertical and horizontal solutions

The passage door is suitable for escape routes

This type of sectional fire shutter OGS is patented - **industrial design**

NON-FOAMED

Ventilation grille characteristics:

Size: 550 x 350 mm

Thickness: 60 mm

Ventilation area: approx. 95%

Ventilation openings: 100 x 14 mm

Fire resistance up to EI 90

FOAMED

The ventilation grille is placed in the bottom part of the fire shutter. The grille foams up and seals the free space in case of fire.
